

# The Wall Flower

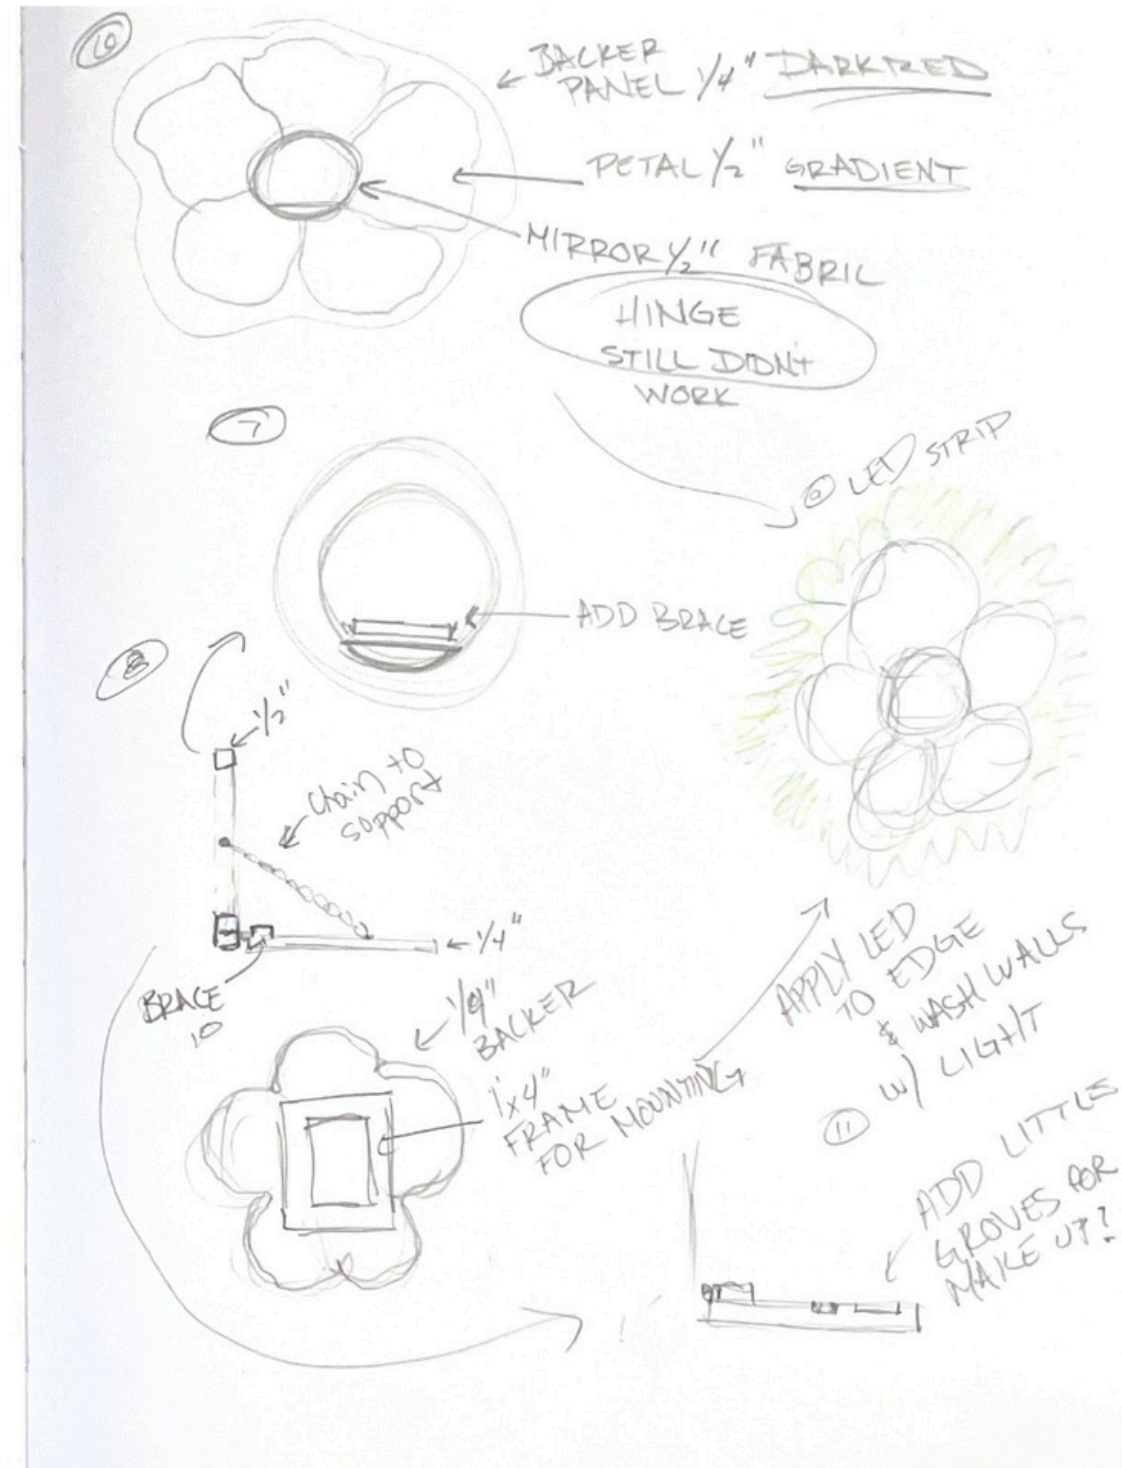

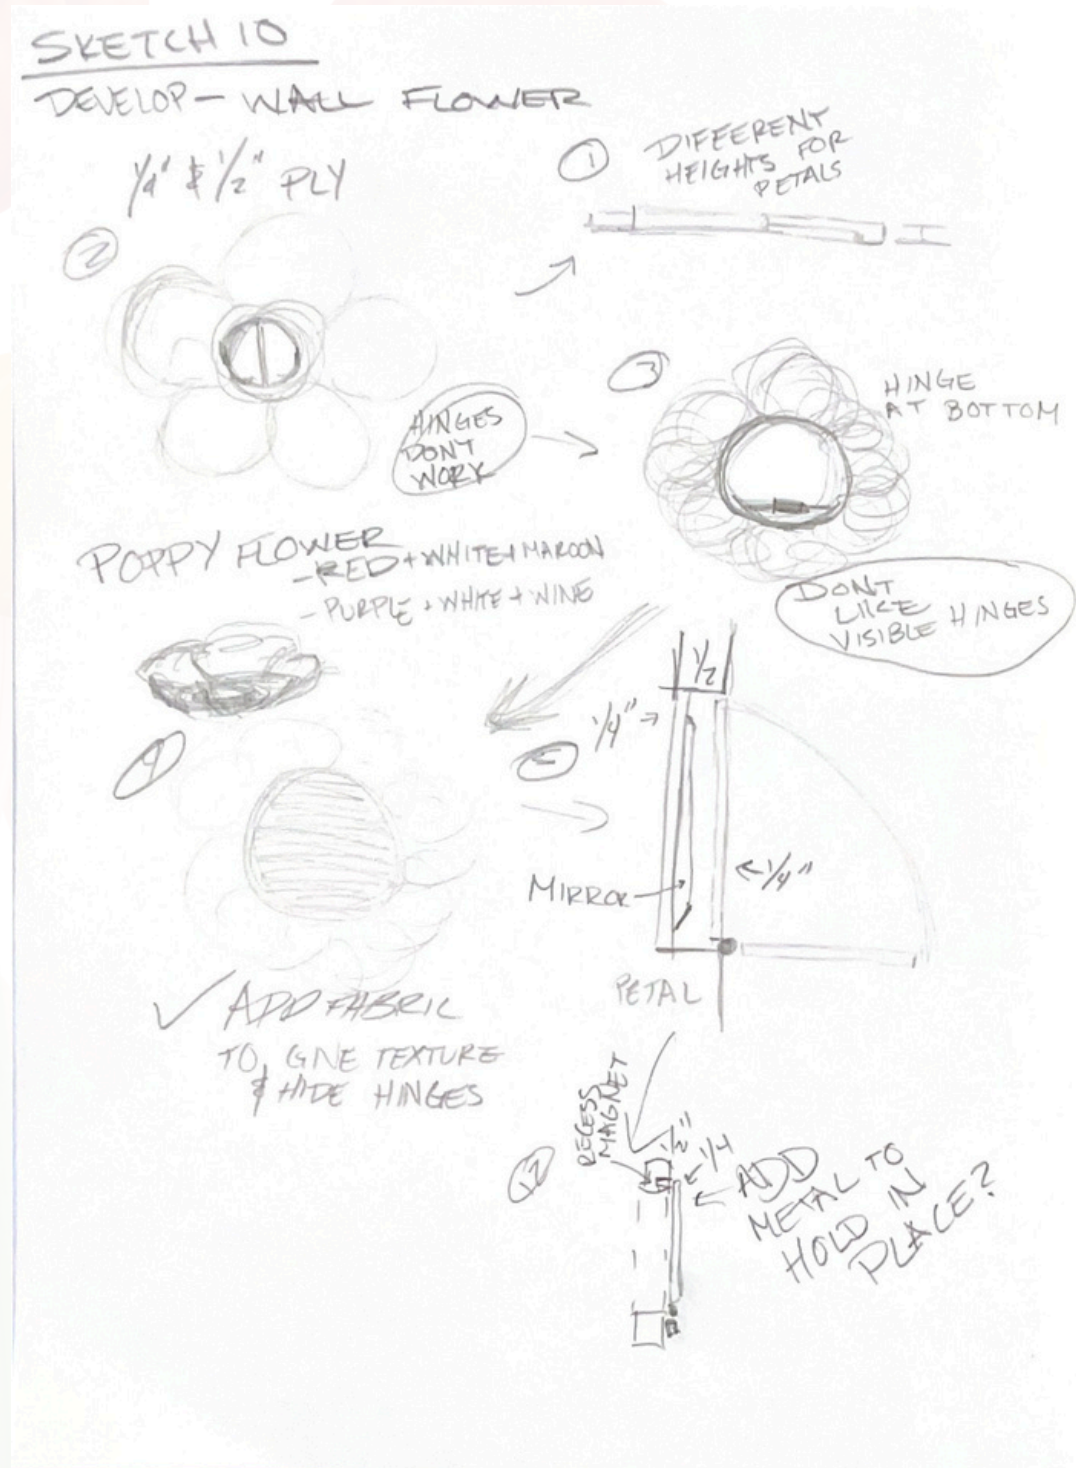

Amanda Matos-Sockol

IND 2442

Spring 2026

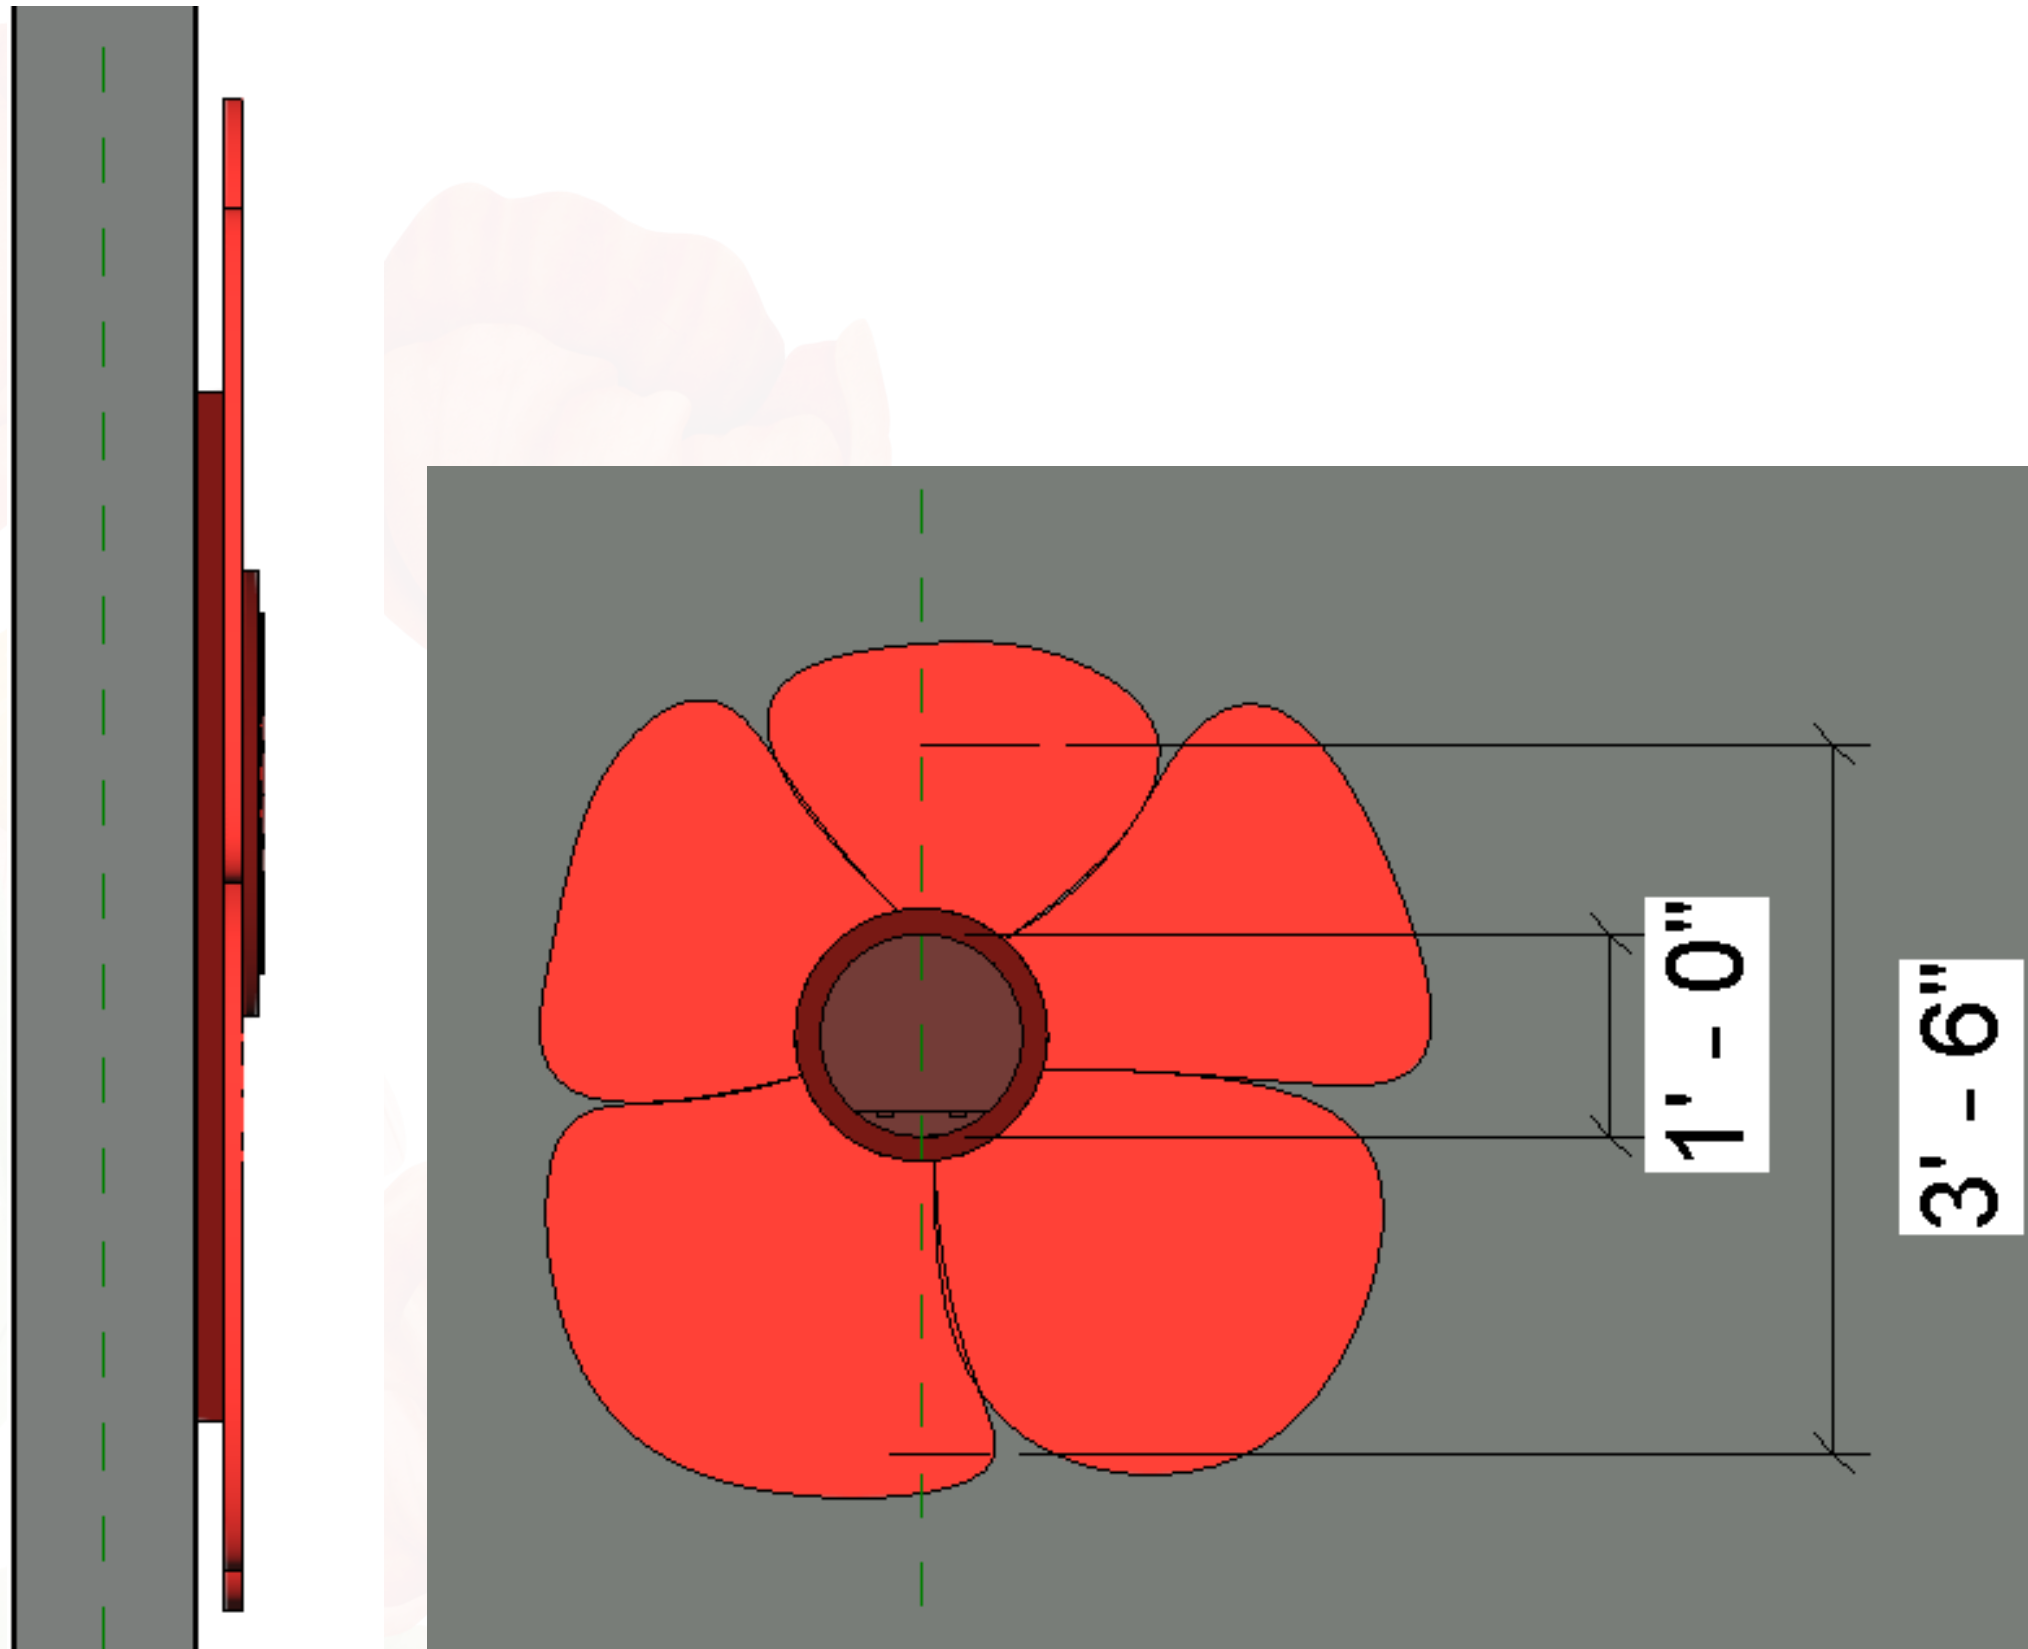

## Ideation

This started with the FORM competition as I was looking at different ideas for mood boosting designs. The *Wall Flower* came from the idea of a bright engaging wall mounted mirror with a little vanity table for people to check themselves before leaving home.

## 3D Modeling

It was difficult to model the wood because of how thin it was. Each Petal is meant to be unique and each *Wall Flower* is different to give the organic personalized feel. Each "table" is a 1' circle with the ring being 2" thick (1" overlap). The overall size is 40"

## Modeling Materials

- 1/4" Plywood
- 1/2" Plywood
- 2 hinges
- Fabric
- 12 x 12 Mirror
- Behr Paint: Pink Elephant M170-1
- Behr Paint: Sugar Poppy M170-4
- Behr Paint: 100 MPH M170-7
- Behr Paint: Divine Wine PPU1-02
- Screws
- Wood glue
- Jewlery Chain
